

I have heard about this issue that can affect my most favorite radio station, K-LOVE. You need to understand that if this proposal goes through, this will have a very negative impact to thousands of people across the nation. K-LOVE broadcasts on hundreds of radio stations, including many FM translators. I live in a very small town, and most certainly would not be able to receive their signal without these translators. This radio station has had a great impact on my life. It has a very uplifting and motivating content, something I cannot find on ANY other station. Many lives are changed, simply by hearing the songs and messages on this station. I want my community to have this positive resource available, so everyone can have an opportunity to hear about the wonderful news of salvation and God's love. There is nothing more beautiful than that. PLEASE DO NOT TAKE MY STATION (AND OTHERS) AWAY!
